Paper Trade Journal Index to feature articles

Volume 162—Year 1978

The articles are cross-referenced for the convenience of users. Short items and news stories are not included in this index.

Chemicals and chemistry

	Page	Issue
'Additives' should be positively charged—John G. Penniman	35	Aug. 1-15
Buyers' guide to papermaking chemicals	43	Aug. 15-31
Coating developments and trends in binders, parts I and II—Edward J. Heiser	30, 33	May 1-15
Coating in Japan—an evolutionary process seeks high-quality/low-cost formulations—Tadayoshi Ishikawa	35	May 1-15
Controlling electrokinetics pays off—John G. Penniman	29	Jan. 1
Future needs of the coating industry	31	May 1-15
Hydrogen peroxide has an expanding role in pulping—Robert R. Kindron	32	June 1-15
The importance of eliminating anionic trash—John G. Penniman	36	April 1
Instrumentation measures the effects of corrosion—John G. Penniman	41	Sept. 1-15
Kinetics of coagulation and flocculation—John G. Penniman	37	June 1-15
Maximizing retention/drainage in pulp slurries—John G. Penniman	52	March 1
Meeting water quality goals without major capital cost—John G. Penniman	47	May 16-31
Neutral-pH sizing can be advantageous to the papermaker—Hugh R. Bryson	26	Oct. 15-31
Overflocculation: How much polymer is too much?—Robert J. Dobbins	42	Nov. 1-15
The Papermakers Conference, part II—Robert C. Tate	26	June 1-15
pH as a factor in the papermaking process—John G. Penniman	34	Feb. 1
PTJ Chemical Survey shows stable supply, rising prices—Karen Boiko	39	Aug. 15-31
Process management needs a manager—John G. Penniman	39	Oct. 1-15
Using fillers to extend wood fiber—John G. Penniman	31	July 1-15
Zeroing in on a $20-million savings—John G. Penniman	52	Dec. 1-15

Conference reports

API & NFPA co-sponsor a Fifth Environmental Conference—Frank Vizard	40	July 16-31
'First-ever' dry forming program draws good response (TAPPI Engineering Conference)—Karen Boiko	36	Nov. 15-30
The Papermakers Conference—Robert C. Tate	31	May 16-31
PIMA elects new officers at its conference	42	Sept. 1-15
Sulfite pulping: whither, whether; wither, weather? (International Sulfite Pulping Conference)—Harry L. Dyer	28	Nov. 15-30
What do Clean Air and Water Acts mean? (NCASI Meeting)	28	May 1-15

Economics, statistics, and trends

API expects capacity growth at 2.6% a year—Neal Lipschutz	24	Nov. 15-30
CPPA President calls for return to cost-competitive production	60	March 1
Despite some problems, paper is a fast-growing industry in Brazil—Thomas P. Clephane	20	Jan. 1
Focus 79: Canadian capacity—Neal Lipschutz	28	Dec. 15-31
Focus 79: Capacity outlook—Neal Lipschutz	25	Dec. 15-31
Focus 79: A financial perspective—Clarence W. Brown	20	Dec. 15-31
Future needs of the coating industry	31	May 1-15
Gross National Product and the paper industry—Jeremiah E. Flynn	22	July 1-15
Paper consumption and macroeconomics—Jeremiah E. Flynn	39	June 15-30
Small capacity growth seen for Canada's paper industry—Neal Lipschutz	34	Dec. 1-15
Study reveals packaging is largest source of solid waste—Neal Lipschutz	57	Nov. 1-15
The Top 50 papermakers of 1977 . . . and 10 contenders	42	June 15-30
When are paper industry stocks attractive?	34	Feb. 15
World market pulp capacities are on upswing	37	Oct. 1-15

Engineering & technology, and energy

Allied Paper opts for large tubular conveyor at Jackson mill	33	Oct. 15-31
CanCel's Castelgar pulp mill improves hog fuel burning system—Karen Boiko	32	Oct. 15-31
Closed-loop controls save money, energy for Union Camp—R. P. Kirsch	18	Oct. 15-31
Composite tubes used in black liquor recovery can last 25 years—P. Pollack and R. Oesterholm	30	April 1
Disposable blades for chippers	32	July 1-15
Guidelines and primary considerations in converting recovery boilers to power units—Ben Mandzuch and David Kraft	28	Feb. 15
How much energy can the paper industry save?—Karen Boiko	27	July 1-15
IP mill cuts purchased energy use in half—Karen Boiko	48	Nov. 1-15
Machinery design: a major factor in effective noise control—Jere W. Crouse	55	March 1
Noise control poses economic, technical problems—Paul Jensen	30	Feb. 1
Relationship of inductive generation to energy savings—Robert C. Ridings	70	June 15-30
A roundup of energy-related industry events—Karen Boiko	38	Oct. 1-15
Scale model testing increases efficiency and cuts downtime	47	March 1
A small investment puts new zip into old & tired supercalenders—J. W. McCluskey and J. M. Duff	38	Jan. 15
Space-age technology comes to the forest—Karen Boiko	Cover	May 16-31
Swedish bark burner saves oil in steam generation	38	March 15
TMP: Heat recovery systems enable mills to offset high energy demand—P. J. Walker and E. J. Batsis	31	Feb. 15
A technique for simulating production quality of high-speed wet press runs—Carl Zotterman and Douglas Wahren	37	Aug. 15-31
Multiwall bags: to automate or not to automate?	59	Nov. 1-15

Environmental control

API & NFPA co-sponsor a Fifth Environmental Conference—Frank Vizard	40	July 16-31
The Clean Water Act of 1977: its implications—Peter E. Wrist	34	April 15
Congress makes 'mid-course' corrections in Clean Water Act	26	Feb. 1
Electrostatic precipitators can remove bark ash—Robert L. Bump	56	Sept. 15-30
Groveton's heat-recovery system is final step in pollution control system	30	Aug. 1-15
Meeting water quality goals without major capital cost—John G. Penniman	47	May 16-31
Philosophy at Somerset: total control of effluent

(*Continued from preceding page*)

within the mill—Harry L. Dyer ..... 27 Aug. 1-15
Steam stripping reduces condensate at Weyco mill—James W. Grant ..... 47 May 1-15
Understanding atmospheric sulfate standards—Thomas W. Joyce and Hardev S. Dugal ... 50 Dec. 1-15
What do Clean Air and Water Acts Mean? ... 22 June 1-15

Expansion & modernization

Alabama River Pulp Co.: gearing up for world markets ..... 32 Aug. 1-15
CFI brought the Augusta expansion in on budget and 10 months early ..... 35 March 15
Chesapeake Corp.'s expansion boosts efficiency, production—Karen Boiko ..... 25 Feb. 15
The Crestwood project: cleaner pulp, more production—Karen Boiko ..... 24 Sept. 1-15
Emsfors Bruk invests $11.5 million to expand lightweights ..... 67 March 1
GNN will spend $258 million to expand

International

Coating in Japan—an evolutionary process seeks high-quality/low-cost formulations—Tadayoshi Ishikawa ..... 35 May 1-15
Despite some problems, paper is a fast-growing industry in Brazil—Thomas P. Clephane .. 20 Jan. 1
Focus 79: International outlook—Karen Boiko 38 Dec. 15-31
Hawthorne Paper invests in first Honduras paper mill—Neal Lipschutz ..... 65 Nov. 1-15
International outlook for paper, pulp, forest products—John W. Garrigan ..... 36 Sept. 1-15
Scanning worldwide linerboard markets—John W. Garrigan ..... 40 Sept. 1-15
Survey of white water corrosivity in 30 North European mills—M. A. Hubbe and D. F. Bowers ..... 53 Nov. 1-15

Management & employee relations

Assessing management's role in improving productivity—Donald P. Brennan ..... 47 Dec. 1-15
CFI brought the Augusta expansion in on budget and 10 months early ..... 35 March 15
Focus 79: Labor scene—Jeremiah E. Flynn .. 30 Dec. 15-31
Operator training program puts the accent on hands-on approach to boiler technology—Neal Lipschutz ..... 36 Aug. 1-15
Process management needs a manager—John G. Penniman ..... 39 Oct. 1-15

Markets

Focus 79: Coated papers and market pulp—Frank Vizard ..... 32 Dec. 15-31
International outlook for paper, pulp, forest products—John W. Garrigan ..... 36 Sept. 1-15
Mechanical pulp takes the plunge into the North American market—Jeremiah E. Flynn ..... 32 March 15
Newsprint roundup—Neal Lipschutz and Frank Vizard ..... Cover Nov. 15-30
An overview of the world paper market—Ian A. Barclay ..... 25 Jan. 1
Scanning worldwide linerboard markets—John W. Garrigan ..... 40 Sept. 1-15
Stop making pulp: sales agent urges two-month shutdown—G. A. Peterson ..... 27 Jan. 1
World market pulp capacities are on upswing . 37 Oct. 1-15

Miscellaneous

Boise Cascade profit center spotlights potato starch ..... 38 April 1
Businessmen must protest governmental excesses—Louis F. Laun ..... 28 Oct. 1-15
Plastic strapping system cuts costs at bag plant 58 Nov. 1-15
Richard B. Scudder named PTJ Papermaker of the Year—Neal Lipschutz ..... Cover Dec. 1-15
Teleprocessing at IP links communications at 213 sites ..... 42 Dec. 1-15
Who's who in North American papermaking—Jessica Yavitz ..... 46 June 15-30

Paper & board manufacture

Cylinder machine developments allow flexibility in felt use—John Giambrone ..... 24 March 15
Evaluation of machine clothing performance can add to profit margins, parts I and II—Gordon J. Chalmers ..... 36, 40 Sept. 15-30
Evaluating fourdrinier performance: a must for quality paper—E. Richard Woodard ..... 24 Oct. 15-31
'First-ever' dry forming program draws good response—Karen Boiko ..... 36 Nov. 15-30
A guide to paper machine troubleshooting—Richard A. Reese ..... 42 May 16-31
New CFI machine means a new product on the market—Robert C. Tate ..... Cover March 1
Computer system governs Uddeholm production of Uddex—Jeremiah E. Flynn ..... Cover April 1
It pays to flush dryer systems in new and old paper machines—L. E. Tedrow ..... 42 Jan. 15
The Papermakers Conference—Robert C. Tate 31 May 16-31
The Papermakers Conference, part II—Robert C. Tate ..... 26 June 1-15
Report on the Manchester Multi-Former: an historical overview—Donald Booth ..... 38 April 15
'Retention & Drainage' workshops solve mill problems ..... 34 Jan. 15
Serpentine drying: benefits outweigh detriments—Sam Palazzolo ..... 33 May 16-31
Survey of white water corrosivity in 30 North European mills—M. A. Hubbe and D. F. Bowers ..... 53 Nov. 1-15

Process controls & instrumentation

Coat-weight control improves sheet uniformity at Abitibi mill—Dick Weber ..... 66 Nov. 1-15
Closed-loop controls save money, energy for Union Camp—R. P. Kirsch ..... 18 Oct. 15-31
Computer system governs Uddeholm production of Uddex—Jeremiah E. Flynn ..... Cover April 1
Computerized calender control at Lock Haven, Pa., mill—Michael J. Ford and Michael McCabe ..... 47 Sept. 15-30
Instrumentation measures the effects of corrosion—John G. Penniman ..... 41 Sept. 1-15

Pulping & bleaching

Applying new ink-dispersing and decolorizing materials to production of topliner and sanitary grades—Andreas von Koeppen ..... 28 Aug. 15-31
Bowater upgrades its cleaning system at its Catawba mill ..... 47 April 15
The Crestwood project: cleaner pulp, more production—Karen Boiko ..... 24 Sept. 1-15
De-inking and washing efficiency: a look at some of the problems—Foster P. Doane Jr. ..... 33 Aug. 15-31
Effect of long-fibered wood species on wet-laid nonwovens—C. Yang and J. Dean ..... 42 July 16-31
Growing sophistication of technology is reflected at Miami seminars—Robert C. Tate ..... 31 Aug. 1-15
Hydrogen peroxide has an expanding role in pulping—Robert R. Kindron ..... 32 June 1-15
Inherent benefits of low-consistency oxygen delignification ..... 37 July 16-31
A practical approach to refining—Richard E. Kline ..... 44 Dec. 1-15
Status of the closed-cycle concept at Great Lakes Paper Co.—John A. Isbister, Douglas W. Reeve, W. Howard Rapson ..... Cover Oct. 1-15
Sulfite pulping: whither, whether; wither, weather?—Harry L. Dyer ..... 28 Nov. 15-30
TMP system at CFI's Augusta, Ga., mill is a success—B. C. Gandy ..... 54 Sept. 15-30

Research & development

A technique for simulating production quality of high-speed wet press runs—Carl Zotterman and Douglas Wahren ..... 37 Aug. 15-31
'Toby' Rance takes research out of its ivory tower—Karen Boiko ..... 32 Jan. 15

Secondary fibers

Applying new ink-dispersing and decolorizing materials to production of topliner and sanitary grades—Andreas von Koeppen ..... 28 Aug. 15-31
De-inking and washing efficiency: a look at some of the problems—Foster P. Doane Jr. ..... 33 Aug. 15-31

Transportation

The boxcar shortage—Frank Vizard ..... 30 June 1-15
Cost considerations in the transportation of raw materials—John R. Smith ..... 42 April 15
